4. These materials are specifically designed to effectively address the diverse learning needs of pupils in Multigrade schools, fostering learning autonomy that enables learners to progress at their own pace from foundational concepts to advanced levels of understanding and applications.

5. This initiative is vital, particularly in multigrade classrooms where teachers must divide their expertise and attention among multiple grade levels, ensuring the efficient use of instructional time and valuable educational resources.

6. The extensive experience of the participants in designing multigrade learning materials makes them exceptionally well-suited for these roles. Participants are requested to bring laptops for use during the workshop.

7. Board and lodging, travel expenses, and other incidental expenses of the participants will be charged against the **2026 Multigrade Education Program Funds** or **2025 Multigrade Program Continuing Funds** remaining balances.
